# Morristown attractions

---

Centered on its **historic Green**, the town of **Morristown** is a socially and ethnically diverse community offering a wide range of amenities to residents and visitors alike.

**George Washington really did sleep here**, for Morristown served as his headquarters for two different winter encampments during the Revolutionary War. The town is also considered as “**the military capital of the American Revolution**” because of its strategic role in the war for independence from Great Britain.

**Morristown Municipal Airport** is the second-busiest general aviation airport in New Jersey. It is a gateway to **New York City** which is easily accessible from the airport, since it is located on Interstate 287, US 202, and SR124.

The National Trust for Historic Preservation has named Morristown one of its “Dozen Distinctive Destinations.” In and around Morristown are a wide number of historic attractions and museums— Washington’s Headquarters, the Morris Museum, MacCulloch Hall Museum and Gardens, the Morris County Historical Society’s Acorn Hall, Historic Speedwell Village, Fosterfields Living Historical Farm, Frelinghuysen Arboretum and the Morris Museum. The Morris County Historic Visitor’s Center can provide details.
