Welcome to Frankfurt / Main

Frankfurt – the financial center, the European city, the traffic hub, the smallest metropolis in the world. When you think of the city on the Main river, you think of the airport, the Paulskirche and Goethe, the Stock Exchange, the Book Fair and the skyline. No doubt about it: Frankfurt brings opposites together in the most fruitful way. And in a most enjoyable manner, the advantages of a global city with tranquility. A city full of life, in whose streets multilingualism is an accepted way of life. Yet often only a few steps separate global city flair and homey coziness in Frankfurt.

Part of the unmistakable style of the city on the river are the renowned museums on the Main banks, the bold high-rise architecture, the thinkers of the Frankfurt School as well as the Grüne Soße, Ebbelwei and Frankfurter Sausages.

And last but not least, and indeed difficult to believe, the financial metropolis is also a very green city!
