

Pilot's Guide to Cardiff, Wales

Executive aircraft handling facility
October 2010

Directions To Signature Flight Support Cardiff Airport

From the M4 take junction 33, and the A4232 towards Barry (follow signs for Cardiff Airport). After 5 or 6 miles, on approach to the airport, ignore sign for main terminal and continue straight ahead.

You come to a roundabout adjacent to the airfield itself. Turn LEFT and follow the perimeter road which loops through 180 degrees. You then come to a mini-roundabout on the edge of the village of Rhoose. Take the second exit towards Rhoose.

After 250 yds you reach a second roundabout. Take the third exit signposted "Maintenance Facility South."

Proceed up the road (Rhoose Road Sat Nav CF62 3EQ) which is flanked by housing on both sides. At the end of this road turn LEFT into the general aviation area. Behind a grey corrugated hangar you will see the White Building. Signature Flight Support occupies the right side of the building at ground-floor level.
