# San Juan, Puerto Rico

---

Our recently acquired Signature FBO facility at Fernando Luis Ribas Dominicci Airport (TJIG/SIG) is ideally located for general and business aviation.

Beautiful old San Juan, a historic old city is just across the bay, and we are located only a short drive from some of Puerto Rico's most attractive tourist destinations and all four of the island's main highways are accessible in minutes.

San Juan is an ideal gateway to the Caribbean, Central and South America. With its unique status as a US Commonwealth territory, the island provides the ideal gateway to North America. On-site US Immigration is available at Isla Grande – until 7:30PM every day – making it possible to complete pre-clearance to the US mainland prior to departure.

So escape to San Juan and explore the island!
